

# Masterclass: Surgical oncology of musculoskeletal tumours

Vetklinikum  
Laxenburgerstrasse 252 a, 1230 Vienna, Austria

## 02 May 2025: Lectures and discussions

08:30-09:00 Course Introduction

### Morning session: Tumour biology and implant-less limb sparing

09:00-10:30 Biology of bone tumours

**10:30-11:00 Coffee break**

11:00-11:30 Joint tumours

11:30-12:00 Tumours of the muscles

12:00-12:30 Ulnectomies

12:30-13:00 Scapulectomies

**13:00-14:00 Lunch break**

### Afternoon session: Large resection tips and techniques

14:00-14:45 Hemipelvectomies

14:45-15:30 Chest wall resections

15:30-16:00 Abdominal wall resections

**16:00-16:30 Coffee break**

16:30-18:00 Clinical cases, interactive session  
(participants are welcome to bring their own cases to be discussed as a group)

**19:00 Social Dinner**

## 03 May 2025: Wet-labs

## 04 May 2025: Lectures and wet-labs

### Morning session: Limb-sparing and other procedures

09:00-11:00	Limb-sparing surgeries
<b>11:00-11:30</b>	<b>Coffee break</b>
11:30-12:00	Peripheral nerve sheath tumours
12:00-12:30	Tumours of the extremities
12:30-13:00	Q&A session, clinical cases
<b>13:00-14:00</b>	<b>Lunch break</b>

### Afternoon session: Wet-labs

14:00-18:00	Wet labs
18:00	Debriefing and farewell

**Wet labs will consist of practicing planning and executing resections of musculoskeletal tumours, by simulating clinical situations. Emphasis will be placed on transferring practical skills immediately applicable in practice. The following procedures will be covered during the labs:**

- Acetabulectomies
- Hemipelvectomies
- Chest wall resections
- Abdominal wall resections
- Limb-sparing resections principles
- Scapulectomies
- Ulnectomies
- PNST of the spinal canal

***The course program is subject to last minute slight changes***
